### PROFILE

I'm a Frontend Developer with over 3+ years of experience creating responsive, dynamic, and scalable web applications. I enjoy working closely with teams to understand requirements and deliver user-friendly solutions using modern tools like React and Tailwind CSS. I'm passionate about improving workflows, building reusable components, and helping teams excel in delivering high-quality projects.

### PROFESSIONAL EXPERIENCE

#### Frontend Web Developer

Moretasks Business Solution Limited - Gurugram, Haryana  
August 2021 – Present

- Spearheaded frontend development for e-commerce websites on Magento 2, focusing on creating dynamic, responsive, and user-friendly interfaces.
- Collaborated with stakeholders to gather and translate requirements into functional designs, ensuring clarity and alignment.
- Designed and implemented complex e-commerce checkout systems with dynamic fields, enhancing user experience.
- Developed and maintained reusable components and frameworks, optimizing development workflows.
- Implemented RESTful APIs, performed testing using Postman, and ensured robust backend integration.
- Mentored junior developers, conducted peer reviews, and facilitated knowledge-sharing sessions to maintain quality standards.
- Collaborated with designers and backend developers to meet project milestones and ensure seamless delivery.
- Created comprehensive unit test cases and conducted integration testing to ensure application stability.
- Built the company's official website using React.js, showcasing innovation and modern design principles.
- Optimized website performance, enhancing load times and user satisfaction.

### KEY ACHIEVEMENTS:

- Honored as Employee of the Month (June 2024) for transformative design and performance improvements.
- Reduced production defects by 20% through effective testing and code reviews.
- Improved development productivity by 15% through process automation and reusable component creation.

### SELF-PROJECTS

#### E-Commerce Website

- Developed a fully functional e-commerce website with features like product listings, dynamic filters, user authentication, and a seamless checkout process.
- Leveraged React.js, Tailwind CSS, and RESTful APIs to build a responsive and user-friendly interface, ensuring a smooth shopping experience.

#### Business Insights Dashboard

- Built a data-driven dashboard with interactive charts and filters using React and Firebase.
- Delivered a scalable and modular design for future enhancements.
